Planimetria di fensterbau/frontale 2012

NUREMBERG. OVER 90% OF THE AVAILABLE SPACE HAS BEEN RESERVED

fensterbau/frontale 2012

Almost Booked up

The international trade fair window, door and facade is back from March 21 to 24. A list of exhibitors is available online

Fensterbau/frontale 2012, international trade fair window, door and facade: technologies, components and prefabricated units, is already almost booked up. Over 90% of the available display space has already been reserved. It is apparent that fensterbau/frontale from 21-24 March 2012 will also use every available space to meet the demand.

With 758 exhibitors from 33 countries, the last edition in 2010 was a success: the display space was completely occupied. The exhibition duo of fensterbau/frontale and Holz-Handwerk, European Trade Fair for machine technology,

equipment and supply for the wood crafts, which takes place every two years, impressively confirmed its status as highlight for the two sectors. Altogether 1273 exhibitors from all over the world and 103,974 trade visitors made Nuremberg the hub for wood crafts, windows, doors and facades.

New features online

The fensterbau /frontale management team has decided to publish a provisional list of exhibitors now: the homepage www.frontale.de provides access to the previous event and to the coming exhibition.

On www.ask-frontale.de you have the chance to plan your visit: information at a glance with details on exhibitors, product and novelty online, daily more and constantly updated. Easy to use, quick and extensive search function – results can be filtered, sorted, saved and recommended. A variety of helpful tools for your planning of activities, including online scheduling of meetings.

At the beginning of October detailed floor plans will be available: you will be able to save the single floor plan on your desktop to have a look where the companies are located and to find out where booths are still available.
